AFTERNOON TEA

TWININGS 300 YEARS OF HERITAGE

The Twinings journey began in 1706 when Thomas Twining set up as a tea merchant at 216 Strand, London. The firm has traded continuously ever since from the same address and over the past 300 years Twinings have built an unrivalled reputation worldwide for their quality and standard of tea blending.

THE HISTORY OF BRITISH AFTERNOON TEA

Anna Maria, the Seventh Duchess of Bedford, is credited with the invention of afternoon tea in 1840. Following in the Duchess of Bedford's footsteps, Afternoon Tea has been a Cunard tradition for over a century and a half. With the introduction of Twinings tea, Cunard's quintessentially British on board experience is further enhanced and perfectly paired with our renowned White Star Service. We hope you too will remember this experience and be part of our exciting history.

CUNARD TRADITIONAL AFTERNOON TEA

Our afternoon tea is accompanied with all the beloved trimmings including freshly baked scones, homemade sandwiches and cakes.

Served with **TRADITIONAL AFTERNOON**, a speciality tea blend selected for Cunard. This traditional tasting tea is a blend of the finest Assam, Kenyan and Ceylon teas. A classic bright, refreshing tea full of flavour. Perfect to invigorate throughout the day.

If you would prefer one of the alternative teas listed below please ask your waiter.

EARL GREY

A light tea, of Chinese origin, pale gold in colour, delicately scented with the oil of the citrus fruit bergamot.

ASSAM

A strong Indian tea with a rich malty character - perfect at any time of the day.
